## Re: Mr Maxim ZGODKO.

Dear Madam,

This is to confirm that I have known Mr. Maxim ZGODKO, attorney-at-law, who is the senior partner of Ackerman-Bellmer in Moscow, for almost ten years. He is an outstanding professional in the field of corporate, commercial and international law. He is fluent in English, French and German.

He is used to serve international clients and involved, as far as I know, in litigation in many European countries such as France, Germany, Switzerland as well as many others.

We worked together in the field of international commercial and financial transactions. While working with him, I was impressed by him as an expert in many fields of international law including complicated import and export matters.

I am happy to recommend my partner, particularly since his already outstanding knowledge of international law will be very much enhanced by his participation in your program.

Obviously, your program will contribute and strengthen many contacts and he has already established between Russia and the United States.

His studies in the United States will enable Mr Maxim Zgodko to provide an outstanding service to his international clients.

Furthermore, he is excellent in establishing business contacts and certainly also an extraordinary advisor in business matters. I have to mention that he is an extrovert professional eager to become an outstanding student at your University.

I strongly recommend Mr. Maxim ZGODKO to your program to become a scholar at your University.

Best regards,

Dr Iur Roger Dagon, av.
